Objective

- Always looking forward to gaining various and diverse experiences, learning, and improving on any new or previous skills I acquire or had and broadening my horizon for new achievements and accomplishments.
-

Education

- High school diploma. (Graduated with 94.8%)
 - Senior computer science student at GUST (Gulf University for Science and technology). (CGPA is 3.74)
-

Skills, experiences, achievements, and abilities

- Accumulated experience working in real workplace environments for more than three years.

- Participated in numerous diverse competitions (Hackathons – Debate Championships – Makeathons – Techathons).
- Worked as a junior assistant researcher for a brief time.
- Joined various social clubs in my university.
- Worked in sales for more than six months.
- Was the secretary of the Bayan Cultural Club (BCC) at Gulf University for Science and Technology (GUST).
- Concluded the Stevens Initiative and currently in the NGCN(NextGenCodersNetwork).
- Secured fifth place in Kuwait Collegiate Programming Competition (KCPC 2020), and second place in its 2021 rendition representing Gulf University for Science and Technology.
- Thrive on challenges, hardships, and obstacles because without them I would not have grown or reached this point in my career.
- Love socializing with people, and I consider myself a team-oriented person, who can adapt to any change.
- interested in web/mobile development, Data Science, and AI.
