

Yousef Al-khateeb

Student

EXPERIENCE

GUST University

- Present

IT help desk

interact with students and professors by phone or in-person to resolve their computer problems related to software and hardware issues to help them get back up running smoothly again.

2021 - Present

Patent Creator

Tower Hands system

(Tower Hands) aims to harness an important tool, which is communication networks to the maximum extent in times of crisis, as the project allows, in the event of communication interruption, to activate an emergency system for the Neighbor Cells to get activated In an automated or a manual way, the Neighbor Cells can communicate with each other and communicate with the survivor's devices connected to them, and then show a map showing the location of the survivors in relation to each other within the coverage of the towers.

I participated in this invention at the CATS conference in March 2022 as a poster

Email

GUST0018769@gust.edu.kw

Address

Salmiya, Block 11, Street Baghdad, Build-ing 21, Apartment 11.

Phone

(+965) 6908 1282

Date of birth

Jun 5, 2000

Nationality

Syrian

OBJECTIVE

In the next 5 years Im looking to strengthen my web development and mobile development skills in vireos domains including networking domain and invest my experience in an enter-level companies

- Present

Datathon participant

Gulf Bank

Working with Data Modeling and Visualization Track.

Sep 2021 - Apr 2022

Mobile app devoloper

7arfanah app

A multi-interface system (User interface, Winch interface) the main functions of the app are:

- To view many garages with different specialties with all their details
- Find nearby garages that are in our database
- Scan any car signs light that appears on the car dashboard
- Live chat with every 7arfanah user to exchange interest
- It lets the user order a winch.

My rule was:

- Idea creator
- UI designer for whole the app
- Collaborate in frontend and backend coding using Dart, Flutter
- Working with outside data sources and APIs
- Deals with FireBase

GUST University

Mar 2022

Organizer & Volunteer

CATS 2022/ IEEE

As an organizer, I contributed to distributing tasks to other volunteers, coordinating trips between students and professors, and trying to attract the largest number of students to attend the speeches.

As a volunteer, I accompanied all the professors from abroad to make sure that all their wishes were fulfilled, and I contributed to bringing all the requirements that the conference needed.

Oct 2020 - Feb 2021

App Developer

Hotel Front Desk Software

A system that provides for the reception an easy way to register new customers and their wishes related to the hotel reservation, and it offers them easy access to all customers' details

- Worked in the whole system (using java)

EDUCATION

2015 - 2018

High School

Al-Najat Private School

Sep 2018 - Present

Bachelor of Science in Computer Science

Gulf University for Science and Technology

I took 1-year foundation, Expect to graduate in May 2023

PERSONAL SKILLS

- Problem-Solving
- Leadership
- Public speaking
- Very social person
- Work under pressure
- Business mentality
